

LOPPUUNMAKSUILMOITUS

03.02.09

MUJUNEN ARI PETTERI

INTIANKATU 31 B 3
00560 HELSINKI

Sopimuksen numero	427089-007-00696
Maksettu pääoma	14.538,68 e
Maksettu korko	1.103,32 e
CITROEN C4 (B5) 2.0i 16v	JGN-279 07.08.06

Kiitos Asiakkuudestanne !

Yllä mainitun osamaksusopimuksenne kaikki erät on maksettu ja osamaksusopimuksenne on päättynyt. Kiitämme asiakkuudestanne Nordea Rahoitus Suomi Oy:ssä ja toivomme, että olette ollut tyytyväinen palveluumme.

1. Omistusoikeuden siirtyminen

1.1 Ajoneuvon rekisteröiminen

Jos rahoituksen kohteena on ollut Nordea Rahoituksen nimiin rekisteröity ajoneuvo, sen rekisteröiminen omiin nimiinne tapahtuu katsastusasemalla. Pyydämme allekirjoittamaan oheisen rekisteriotteen ilmoitusosan ja toimittamaan sen seitsemän (7) päivän kuluessa rekisteriotteen päiväksestä katsastusasemalle omistusoikeuden rekisteröintiä varten. Mukaan tarvitsette myös rekisteriotteen teknisen osan. Jos myyjä on merkitty rahoituskohteen omistajaksi, saatte rekisteriotteen ilmoitusosan heiltä.

1.2 Veneen rekisteröiminen

Jos rahoituksen kohteena on ollut Nordea Rahoituksen nimiin rekisteröity vene, pyydämme ottamaan yhteyttä kotipaikkakuntanne maistraattiin veneen rekisteröimiseksi omiin nimiinne. Rekisteröintiä varten ottakaa mukaanne tämä kirje sekä vanha alkuperäinen rekisteröintitodistus.

Jos rahoituksen kohdetta ei ole rekisteröity, omistusoikeuden siirtyminen ei edellytä toimenpiteitä.

2. Vakuutukset

Jos osamaksusopimukseen on liitetty Al-Liikennekasko tai Powerturva, se on päättynyt osamaksusopimuksen päättymispäivänä.

Pyydämme ottamaan yhteyttä vakuutusyhtiöönne ja tarkistamaan kohteen vakuutusturvan voimassaolon. Voitte myös muuttaa vakuutusta tai vakuutusyhtiötä.

Haluamme palvella Teitä jatkossakin ja toivotamme Teidät tervetulleeksi uudelleen asiakkaaksemme. Kun uudet hankinnat ovat mielessä, ottakaa yhteys omaan kauppiaseenne, hän on myös rahoituksen asiantuntija.

Ystävällisin terveisin

INNOVATIONS & INNOVATORS

Staccato introduces single-chip, ultra-wideband IC family

Ripcord2 is Staccato Communications' second-generation UWB (ultra-wideband) IC that integrates RF front-end, digital baseband, MAC (media access controller) and I/O. The single-chip, all-CMOS device covers WiMedia Bands 1, 3 and 6, and has a frequency range of 3 to 9 GHz. Staccato achieved this using standard 65-nm CMOS technology. The second generation moves performance forward in terms of power

consumption, size and integration, the company says. Ripcord2 supports multiple protocols, including Wireless USB, High-Speed Bluetooth, Wireless IP and Wireless Audio/Video. Other new features include DAA (detection and avoidance), providing a worldwide-compatible solution in a single device, as in some territories and some bands—differing by country and regulatory regime—UWB operation is only permitted if it is capable of detecting and not transmitting at the same frequency as other signals.

The chip supports all Time Frequency Codes and data rate modes and has USB 2.0 host/device and SDIO 2.0 interfaces. Staccato summarises the chip's capabilities as "multiple band groups on top of multiple protocols—all software-defined." The company believes that, as multiple standards compete for spectrum space and—potentially—interfere with one another, UWB's ability to operate with "multiple overlapping clusters" of users will be significant. It sees deployment in handsets—to transmit signal types such as HD video—as a key

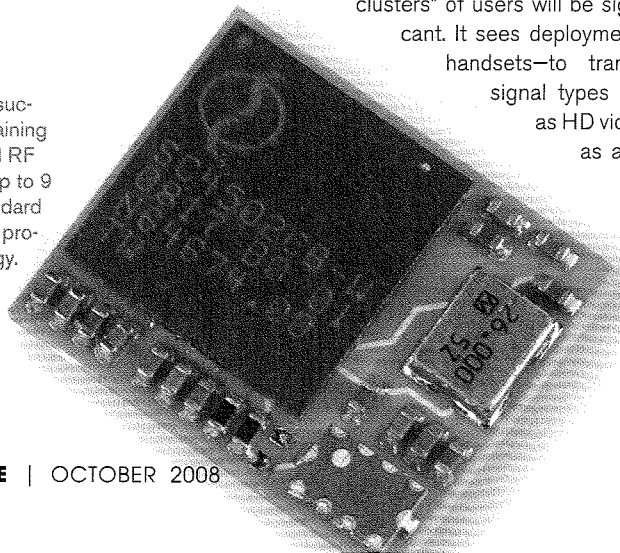

direction for the technology. Other emerging application spaces that the company mentions include automotive—where the motivation would be a reduction in weight through elimination of wiring—and industrial, where the low latency for control of, for example, robotic systems might be key.

Ripcord2 is also suited for high-volume consumer applications, including handsets, DSC/DVC (still and video cameras), printers, PMPs (personal media players), wireless audio/video and mass storage. An accompanying development kit provides an integrated development environment for native Wireless USB-device and High-Speed Bluetooth designs, as well as generic WiMedia UWB applications. The Ripcord Control Library (RCL) that comes with the development kit provides a fully abstracted embedded software library with portable services to simplify the interface to the Ripcord2 IC, supporting integration on a wide variety of platforms; a module solution can occupy as little as 8.5×6 mm. With due care for layout, "you can put it on FR4 [printed circuit board laminate] and it will work." The chip itself measures 5×5 mm. Staccato is reluctant to disclose pricing but says that the models that Bluetooth and WiFi demonstrated have similarities. "[When they reached a total solution cost of] under \$10, there was initial adoption; at under \$5, they reached high volume; there is no barrier to this technology following the same path," according to a company spokesman.

—by Graham Prophet

Staccato Communications,

Staccato has succeeded in obtaining ultra-wideband RF performance up to 9 GHz from standard CMOS silicon process technology.

HOTEL BOOKING SHEET

ASTRON

29, 30 en 31 March 2009

SCH-GF34969

Print and sent to:

deadline 28 February 2009

Hotel Schiphol A4

Groupreservations

Rijksweg A4 nr3

2132 MA Hoofddorp

Nederland

Fax: +31 252 62 05 32

Email: groupreservations@schiphol.valk.nl

Please reserve me ___ rooms:

<input type="checkbox"/>	Single room (1-person)	at 125.00 Euros *
<input type="checkbox"/>	Double room (2-persons)	at 135.00 Euros *
<input type="checkbox"/>	Triple room (3-persons)	please contact the hotel for prices
<input type="checkbox"/>	Quad room at (4-persons)	please contact the hotel for prices
<input type="checkbox"/>	Business suites	please contact the hotel for prices
* per night, VAT & breakfast included (excl. city tax)		
Arrival day:	29-03-2009	Time: <input type="checkbox"/> Non smoking room
Departure day:	31-03-2009	<input type="checkbox"/> Smoking room

Guest details:

Name	Firstname
Address	
Postal code	City
Country	
Telephone number	Fax number
Email	@

Payment details:

<input type="checkbox"/>	American express	Credit card number:
<input type="checkbox"/>	Visa/CB	Expiry date:
<input type="checkbox"/>	Eurocard/Mastercard	Access signature:
<input type="checkbox"/>	Diners	

For any information about the hotel, check the website www.hotelschiphol.nl

Important notes:

- 1) Hotel booking deadline: February, 28 2009
- 2) After this date Hotel Schiphol A4 will not able to guarantee availability nor prices
- 3) All above hotel rates includes service charges & full buffet breakfast
- 4) If your arrival time is later than 16.00hrs (4pm), please inform the hotel in order to secure your booking
- 5) If you have a fax number or email address, the hotel will acknowledge this fax or email within 72 hours. If no answer is received please call the hotel or fax again. Mark "COPY"!!
- 6) Cancellation must be faxed or e-mailed within 48 hours before the time of your arrival. If not received, the hotel is entitled to CHARGE the accommodation fee of one (1) day minimum
- 7) The special ASTRON rates, single €125,-, double € 135,-, applies only to the quota of rooms that have been set aside for the participants to Astron. After that quota has been reached another rate will apply which the hotel will quote in their confirmation to you
